# TERROR !

THE BRUTAL face of the Israeli occupation of Palestine shows itself again as an Arab schoolboy is beaten up and dragged by the hair to a waiting prison van. The Israeli Secret Service - The Mossad - has admitted that those arrested face "routine" torture.

But such violence is not just confined to Israel. It is not a sign of some extra special wickedness of the Jews. It is simply the inevitable result of one nation denying another nation its inalienable right to self-determination.

### RIGHT AND DESIRE

All nations have this basic right and desire to rule themselves. If a people is denied this right, they are certain, sooner or later, to rise up against their rulers. And if their rulers do not accept their wishes and grant them independence; violence and repression are the only alternatives.

This is why the photograph of the brutal Israeli soldier could have been taken in any one of dozens of places around the world.

It could be Armenia, where Soviet troops are suppressing nationalist demonstrations. It could be Tibet, where tens of thousands of people demanding their freedom, have been shot by the occupying Chinese Red Army. It could be a U.S. policeman dragging away a young American

Indian from a demonstration for land rights. And *NFN* reporters have seen exactly the same sight in Ulster, with the R.U.C. attacking young loyalist men and women opposed to foreign rule by the London/Dublin junta under the Hillsborough Agreement.

### WORST EXAMPLE

Israel is merely the worst example at present of the world-wide problem of the repression of minority nations. The violence will only cease when those nations are independent.

The Palestinians; Armenians; Kurds; Tibetans; American Indians; the people of Ulster - all will remain oppressed until they gain the fundamental right to self-determination.

The acceptance of this right, for all nations, not just those ruled by your enemies, is one of the most important tenets of the Third Position.

This is why only this world-view can bring peace and freedom to the captive nations of the world.

### HIT THEM WHERE IT HURTS !

ALL true Nationalists support the Palestinian cause, but passive support isn't enough. In our last issue we revealed how the Association of British Travel Agents (ABTA) is holding its 1988 Convention in Israel in December. This will take 3,000 big spending delegates to boost the ailing economy of the Terror State, and lead to a big increase in tourism next year.

The National Front has been approached and has joined with an association of groups and individuals in Britain, under the umbrella - *The Campaign for Palestinian Rights (CPR)*.

As part of a CPR strategy to give support to the Palestinian cause and apply pressure to the Zionist State, the National Front are to concentrate on a campaign

against ABTA.

### APPLY PRESSURE

All nationalists can help to apply pressure to get ABTA to hold their convention elsewhere. Complain to the managers of your local ABTA affiliated travel agents. Tell them you won't book holidays with them until or unless this inappropriate venue is

changed.

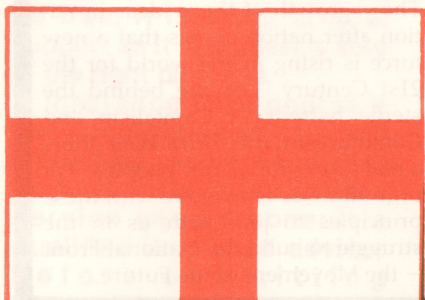

And send letters - and ask your Trade Union/Student Union to pass resolutions condemning the ABTA decision - which should be sent to: *Association of British Travel Agents, 55-57 Newman Street, London, W1P 4AH.*

The more financial pressure we can apply to ABTA and its members through potential lost

revenue, the more likely we are to gain a small but important victory for Palestine.

The proposed trip will aid a repressive State and mock the sufferings of the Palestinian people. It will also place naive ABTA members in an embarrassing and perhaps even dangerous position.

They should go elsewhere.

## WIDESPREAD PROTESTS AGAINST NEW S.S. ACT

STAGE 3 of the governments new Social Security Act came into effect from April 11th. The main changes in this final phase of "making Britain a fairer society" are concerned with Housing and Supplementary Benefits, Pensions and Family Income Supplement.

Whilst the rich found themselves richer after the Higher Level tax cuts in the recent Budget, over 6 million of Britain's poor will be affected by the changes in Housing Benefit alone!

Up to a thousand people will lose over £2 a week and another thousand people will lose their entitlement altogether!

But perhaps worse of all is the estimate that 50% of all people claiming Supplementary Benefit (SB) will be driven into the clutches of loan sharks.

Not suprisingly, many of Britain's DHSS offices were stormed by irate claimants and widespread demonstrations were held on the day of the changeover.

DHSS staff came out in solidarity and angry pensioners besieged Downing Street.

### \* SUPPLEMENTARY BENEFIT

\* This is now known as *Income Support*. In effect it becomes a 'personal allowance' replacing SB scale rates and replacing payments for heating etc.

\* Some people will find themselves up to £4 a week worse off.

\* Single Payments for necessary items such as essential furniture, cooking utensils etc. are scrapped. Claimants now have to beg to borrow the money to purchase these items. The loaned money will then be taken out of their *Income Support* by the DHSS in instalments.

\* Payment is no longer made for water rates and other subsidiary housing costs.

### \* HOUSING BENEFIT

\* Under the government's new cost-cutting Housing Benefit, people on the financial breadline now have to pay

20% of their domestic rates. This includes those on the dole!

\* The discretionary powers of local authorities to set their own 'more generous' schemes have been abolished.

### \* STATE PENSIONS

\* The Act will make large cuts in future additional pensions from the *State Earnings Related Pension Scheme (SERPS)* for people of working age.

\* People can still 'contract out' of SERPS but only if they agree to have their money paid into an approved 'Personal Pension Plan' run by one of the big insurance companies. Thatcher's friends in the City are expecting over 5 million new policy holders on their books!

### \* OCCUPATIONAL AND PERSONAL PENSIONS

\* Contracting out standards for Occupational Pension Schemes will be reduced and contracting out will be allowed for personal pensions, both of which mean lower pensions for those outside SERPS.

### \* FAMILY INCOME SUPPLEMENT

\* This is now called *Family Credit (FC)* and applies to those families in low paid jobs.

\* Free School meals for children have been abolished. *Family Credit* includes an amount for 'dinner money' but families will not receive the full value of the lost free meals.

\* The power of local authorities to provide low cost or free school meals for other children, and the low income scheme for free milk and vitamins is also done away with.

### POETIC JUSTICE

These are the main points

of the final stage of the S.S. Act (1986), but it also affects *Widow's Benefits*, *Child special allowance* and *Invalid care allowance*.

Interestingly enough, the only gain a few ordinary

people make under the new rules is for invalid care allowance. And why? Because the government were taken to the European Court of Justice and lost!

## NEWS IN BRIEF

### CANCER RISK

U.S. food and detergent giant Proctor and Gamble have applied to the government to sell a new 'fat-free fat' in Britain. Called *Olestra*, they reckon it will make them huge profits.

They admit that research to demonstrate the 'safety' of this new gimmick has in fact shown that it gives rats fed on it various cancers, including pituitary tumours, leukaemia and abnormal liver changes. But the company says that these little side effects are "not statistically significant."

### LAMBS TO THE SLAUGHTER

A hot spot of Chernobyl radiation has been found near

Grassington in North Yorkshire. Levels in the area are as high as 18,000 becquerels per square metre - a third as high again as the levels found in parts of North Wales.

But although movements and the slaughtering of sheep are still restricted in Wales and Cumbria, contaminated sheep from the affected part of Yorkshire have been freely sold. And one shocked Yorkshire farmer was found to be contaminated with higher levels of radioactivity than even the inhabitants of Cumbria and North Wales.

### THE REAL LITTER LOUTS

The Tory gutter press made a big thing recently about Thatcher's resolution to "rid Britain of the litter louts who spoil our towns and countryside." Worthy enough, but perhaps she should look first at the far more serious 'littering' for which she herself is directly responsible.

The Paris Commission is an international body which oversees land based

discharges into the North Sea. According to its latest report, Britain's nuclear power stations are 1,500 times more polluting than their equivalents in West Germany and twice as polluting as those in France. Yet Thatcher is at the heart of the State drive to build more of these deadly and costly white elephants, in order to weaken further the power of Britain's miners.

And Britain alone out of 8 north European countries has refused to agree to ban the dumping of sewage at sea. At present our 9 million tonnes a year is a major factor in the catastrophic drop of marine life in the North Sea.

And equally disturbing is the fact that many coastal towns and resorts like Great Yarmouth and Blackpool pump their sewage directly into the sea (and onto the beaches).

So next time you go on holiday, don't drink the water!

### HAPPY HOLIDAYS

And whilst on the subject of holiday resorts, NIREX have just announced that they are considering dumping nuclear waste off the Blackpool coast.

So perhaps Blackpool's 8 to 10 million floating summer population should go on holiday to Yarmouth after all, before they really find themselves in the....

## WHERE WE STAND

### NATIONAL FREEDOM

Britain is a Family of Nations - England, Wales, Scotland and Ulster - linked by blood and history. The peoples of all nations have an inalienable right to self-determination and to preserve their native culture and traditions.

### RACIAL SEPARATION

Race is the main determining factor in nationality. Racially mixed societies cannot form one nation and are

therefore unstable. No one race is "superior" to others, but they are all different. Racial integration threatens all races. Humane repatriation is better for us all than endless repression and racial violence.

### SOCIAL JUSTICE

The nation is a great family. Every member of our national family has the absolute right to care at the nation's expense when young, sick or old. There must be equal opportunity for all, but unearned privilege for none.

### WELL DISTRIBUTED PROPERTY

The realistic opportunity to own one's own home and place of work is the right of all our people. Direct ownership of the means of production and distribution is essential for individual freedom, for family stability and for the best use of our

national resources.

### SANITY IN FINANCE

The right to create the credit needed by the economy must belong to the people's government. The banks which have usurped this right must be stripped of their unjust gains and power. The National Debt is based on usury and must be repudiated.

### RESPECT FOR NATURE

We hold the environment in trust for future generations. Pollution of the land, sea and air, and of the gene pool through radiation, is a betrayal of that trust.

### DIRECT DEMOCRACY

Parliamentary representation is a fraud. Party rule is a cloak for the dictatorship of vested interests and

media bosses. Government must be in the hands of the people themselves, through new information technology and the election of delegates to carry out their wishes. Power must be devolved to the lowest possible level

### THE ARMED PEOPLE

The freedoms given by these principles must be defended through armed neutrality, with well-equipped national defence forces involving the entire adult population. Power, wealth and arms in the hands of the people!

### REVOLUTION NOT REFORM

These changes cannot be brought about by tinkering within the System, or by relying on the System's own institutions, such as parliament, schools or the courts. They

can only spring from a National Revolution. This revolution must begin in the hearts of individuals, then spread by their example to involve whole communities in revolutionary structures such as alternative councils and schools, neighbourhood patrols and self-help groups. Once we cease to depend on the institutions of the old State, it will be swept aside.

### THE THIRD WAY

The growth of these ideas in nation after nation shows that a new force is rising in the world for the 21st Century. Leaving behind the sterile hatreds of Capitalism and Communism, this *Third Way* offers a real future for all our peoples. We urge all those who agree with these principles to join with us in the struggle to build the National Front - the Movement of the Future.

# America on the run !

Anti-American riots swept through Honduras recently in the latest outbreak of nationalist sentiment directed against the imperialism of the 'Super Powers'. 5 people died in the riots - four of them shot - as Hondurans hurled stones, torched cars and stormed into the US consulate. Witnesses said that the fatal shots came from within the consulate before it was stormed.

Honduras is traditionally seen as Washington's closest ally in Central America which makes the events during mid-April even more significant.

## ANTI-ZIONIST JEWS GROW STRONGER IN ISRAEL

the religious argument that the land of Israel was given to the Jews by God, but they sinned and were

dispersed. The land will one day be given back by the Messiah, but until then it is forbidden to take any action to try to restore the land to the Jews.

At least 60 per cent of the people of Jerusalem are sympathetic to such strictly orthodox ideas. And they also have a good deal of influence with the religious parties in the Knesset, the Israeli parliament.

### GROWING INFLUENCE

The group claim to be winning over growing numbers of young Jews. "Our influence is growing, and the new generation are beginning to realize how the Zionist State has cut them off from their heritage."

This should make nationalists in this country, and elsewhere, realize that it is wrong to blame all Jews for the evils done by the Zionist State of Israel. Our quarrel with that state is not racial or religious. It is political, because Zionism denies the native Palestinians the right to rule themselves in their own land.

NOT ALL Jews living in Israel support the Zionist State and its oppression of the native Palestinians. A large number of ultra-orthodox Jews, mainly living in Jerusalem, believe that the establishment of the State of Israel went against the laws of God. As a result they refuse to pay taxes or to serve in the armed forces. They even support the Palestinian Liberation Organization.

At least 60,000 inhabitants of the orthodox quarter of Jerusalem are involved in *Neturei Karta*, The Guardians of the City. They wear the traditional black coats and hats of the Eastern European ghettos. And they speak Yiddish rather than Hebrew.

Their secretary, Rabbi Moshe Hirsch, wrote to George Shultz, the U.S. Secretary of State offering to meet him and put the point of view of the Palestinians who had refused to do so. The offer was rejected, as the Zionist "advisors", still so powerful in American politics, are violently opposed to anti-Zionist Jews such as the *Neturei Karta*.

### PRINCIPLED

Rabbi Hirsch and his people certainly hold remarkable and principled views. "The Zionist government of Israel is forbidden, but the indigenous Palestinian Arabs have accepted the PLO, so we must be loyal to their rule," says the Rabbi.

They want to leave the State of Israel, preferring instead to have a Ministry of Jewish Affairs in a West Bank Palestinian state.

### RELIGIOUS

### YANK TERRORISTS

April sees the second anniversary of Washington's horrific terrorist attack on the Libyan capital, Tripoli. Thankfully the carnage and deaths were much lower than they could have been due to the incompetence of the U.S. Air Force that launched the attack from occupied Britain.

REPATRIATION - or the return of immigrants to their ancestral lands - is perhaps the most controversial solution proposed towards the problem of race relations throughout the world.

Is it a real option proposed by people of goodwill of all races, or an emotionally charged reactionary position masking racial hatred?

Today, the very mention of the idea of repatriation pushes adrenalin levels to a point where a serious in-depth analysis of the proposal is prevented.

In the first of two major articles, *NF News* is pleased to highlight the essential work that is being done in North America in order to show that the races can work together for our mutual benefit, in an atmosphere of genuine sincerity and mutual respect.

In our next issue we will take a look at the progress that is being made on similar lines in Britain.

The following report was submitted by our North American correspondent.

IN a series of on-going conferences, the *American Friends of the Movement*, representing the National Front, have joined with a forum of White and Black separatists to discuss the only real solution to race relations - racial separation. The first meeting, which took place on February 12th 1988, was hosted by the *Committee for Self-Determination* to initiate dialogue on this timely topic. The result is that spokesman of a number of groups representing the different races have joined to proclaim their unified support for nationalism and racial independence.

Robert Brock, President of the Self-Determination Committee, based in California, introduced the theme of the first conference. He stated the belief that Blacks in America constitute a separate people on the soil of North America who were enslaved and later forced to become citizens of the U.S. Government without first being given the chance to self-determination

#### HUMAN RIGHTS

In the past twenty years his organization has filed several briefs in U.S. Federal Courts based on human rights and international law, the first beginning in 1965. Mr. Brock explained that the purpose of the court briefs was to "disclaim citizenship of Blacks, thus allowing them to determine their own status."

By claiming that Blacks are not U.S. citizens, the Self-Determination Committee has challenged the jurisdiction of the Federal Legal System over Blacks in America. Mr. Brock cited one example of how far reaching their efforts have been: "We tested the case. There were several Blacks who were supposed to go into the Army (during Viet Nam). So the Blacks said 'No', we are not subject to the draft law." Surprisingly enough, when the U.S. Army looked into the case they could not prove that Blacks were citizens. The result was that more than 1,000 Blacks were never drafted, their defence based on this case. Similar tests were also applied to Blacks being tried in civil and criminal courts.

#### ALIEN SOCIETY

The point of Mr. Brock's actions was to state through legal demonstrations that Blacks cannot be fairly judged within an alien society, and that expecting them to serve a hostile establishment, opposed to their racial and cultural identity, is inherently self-destructive. Mr. Brock went on to say that such methods of resistance to the System were not for Blacks alone, and that they were open to everyone, based on the precedence of his own

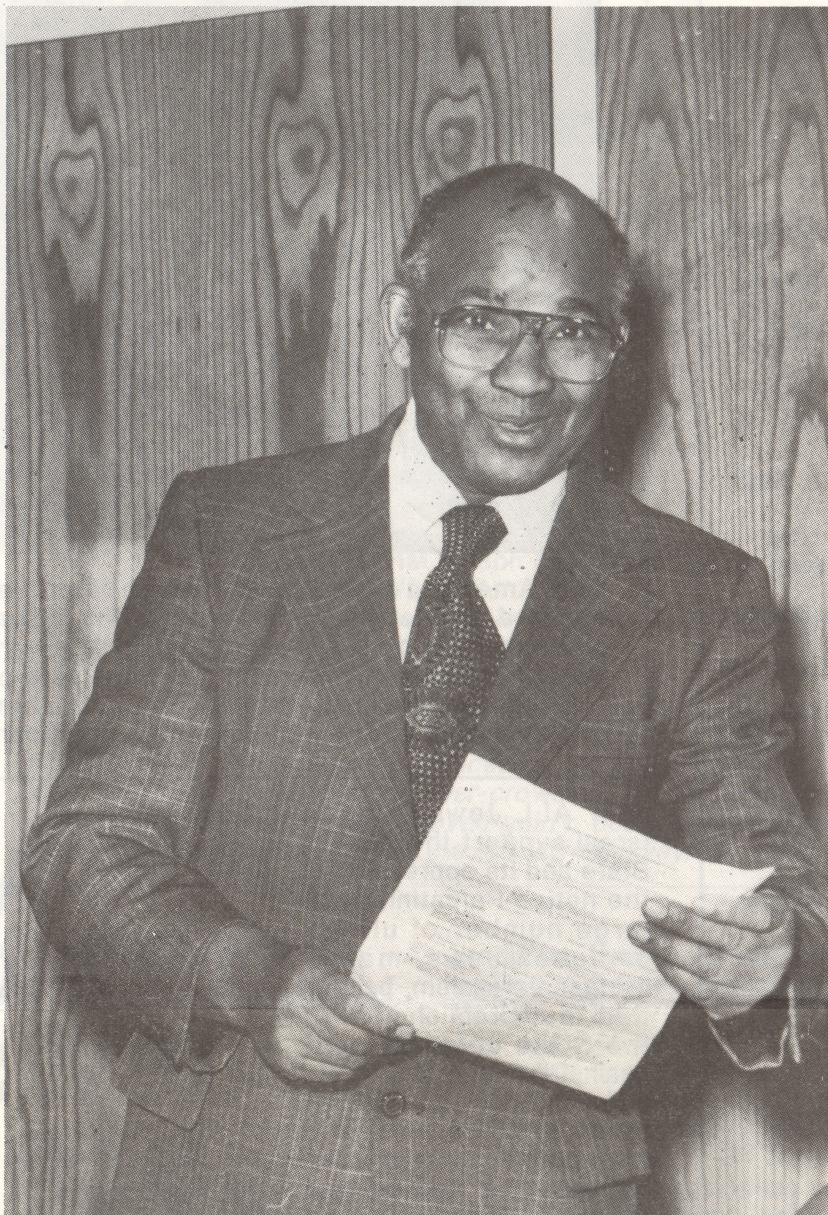

cases.

Mr. Brock urged everyone to begin looking at racial problems in America in a new light. Contrary to the propaganda line of the U.S. news media, one could not single out groups of Whites, such as those in Forsyth County or Howard Beach, who have become highly visible scapegoats for the integrationists, to blame for continued racial tensions. Because, he explained, it is the U.S. Establishment which has jurisdiction throughout all parts of the country and enforces integration, which is responsible for racial strife. (Howard Beach and Forsyth County are White areas in which integrationists have attempted to settle Blacks. This policy has met with militant demonstrations involving thousands of Whites who want their areas to remain all White. - ed).

"The main problem for Black people in the U.S., as well as Whites," he stated, "is that Blacks were captured and brought here as slaves. It's not housing. You could give every Black person in America a house, and it wouldn't solve the race problem. It's not jobs. Look at the jobs Blacks have got, and it's caused even more such problems..... It is the capturing of Blacks and bringing them here as slaves. Everything else is a result of that."

Brock challenged the assertion of liberals and integrationists, such as the NAACP, that material prosperity or greater employment opportunities will allow the races to live in harmony. "As soon as [Blacks] get houses and jobs they will look for another problem..... Integration has caused boundless problems. Where do we go from here?"

Mr. Brock believes that most Blacks unfortunately only see the short term gains, such as getting a job, a house and money. This is the unfortunate result of many years of indoctrination by the corporations and politicians who fear the thought of Blacks having their own economic and political power, separate from the Capitalist U.S. society. Black people in America,

Above: Robert Brock of the Self-Determination Committee addresses the audience of Black and White Separatists.

Below: Leon Dobbs of the African Hebrew Israelite Community. "It is upon us to see that the vision is fulfilled."

Brock emphasized, must learn to do something for their long term prosperity.

#### ISSUING A CHALLENGE

An important participant in the 'Living Alternatives' programme is Leon Dobbs, speaking for the *African Hebrew Israelite Community*, which has helped successfully repatriate Blacks in its 20 years of operation. Mr. Dobbs stressed that the motivation of the people involved in the movement for separatism is that they see "eye to eye." He went on to make clear that, "The desire of an individual to live with members of his own race is not racism, and I think we all feel that way."

Both Black and White separatists agree on basic points, Dobbs stated, so now they must come up with solid proposals and agendas to see the ideals realized. First, activists of the different races must come together in small discussion groups. "In this atmosphere," Dobbs said, "we can make a sincere analysis of the situation where separatism might be approached as a viable solution to the problems which are confronting America..... I think that those of us who have a vision, and the courage to bring about the vision, which is to save the particular differences of our respective races, it is upon us to see that the vision is fulfilled."

Emphasizing the shared belief of all the participants that race-mixing could not build a healthy or cohesive society, he argued that attempts at integration can never change the face of culture. "A Frenchman can go to India and visit," he said, "But India was designed by Indians to perpetuate Indian customs, culture and values. So a Frenchman who goes there cannot make that France. He can visit there and respect the Indian culture and values... as a Frenchman, and then go back to France."

The point of 'Living Alternatives', Dobbs says, is to break down the barriers which may still stand between different nationalists, and also to challenge the negative labels used by those who oppose any kind of self-determination and self-preservation. Nationalists, he stresses, are the only ones who are working for positive change.

"While written laws have changed, the spirit of the individual has not. And until the two are corresponding, you are going to have tension and friction. You are going to have the kind of situation in America where the welfare rolls and crime rate are going through the ceiling."

The Capitalist State in

# AGREE TO SEPARATE! FINDING ALTERNATIVES

A comrade reads extracts from 'Ideas for the Future', the American F.O.M. recruiting booklet to: Left to right - Leon Dobbs; Daniel Johnson, President of Pace Amendment Advocates; and Robert Brock.

America has completely lost touch with the day to day realities that the mass of people are forced to suffer. Mr. Dobbs concludes that "these expressions of frustration among young men are going to have to be diminished...." And this will only happen through separation.

## PAN - AFRICANISM

Kenyatta Akkebala, the minister for National Affairs for the Pan - African Inter - National Movement, pointed to one alternative. "As a spiritual movement," Akkebala said, "we see the solution to the racial problem here in America as separation and returning to our homeland. Many solutions have been tried. But we see it as worse than before.... America is in chaos."

Kenyatta Akkebala insists that integration has not worked, and that in the last 40 years Blacks have lost their "spirit to fight". Like White nationalists, Black separatists must convince their people that momentary gains are not enough, and in the long run they must seek a new destiny outside a corrupt and uncaring system. The chief aim of the Pan - African Movement is to educate and enlighten Blacks and make them aware of who they are.

## THE NEW NATIONS

As America threatens to break up socially, politically and economically, as part of a growing Balkanization in that country, racial activists are eager to offer a way out of the coming chaos which will appear as the U.S. Establishment enters its final death throes. Like Whites who desire an independent nation

on American soil in order to protect and regenerate their way of life, Black nationalists are already working towards a similar goal for their people.

Jumanne Mweusi, representing the Republic of New Africa, has poignantly described his organization's ideology of Black nationalism, its political development, and the need for new land and a new life for Black Americans. Mr. Mweusi believes that his people must take the idea of Mr. Brock's programme of legal separation one step further, by creating an all Black State within North America. For the past 20 years the RNA has advocated the creation of an African nation in the southern states, in areas with a predominantly Black population. The organization is headed by President Omari Obedele and its leadership is selected democratically in elections open to all Blacks in America who want to take up the Black nationalist cause.

Speaking of the anomie and alienation of modern society, which Blacks as well as Whites, have suffered, Mweusi said, "How do we know how to act naturally, living in a concrete jungle? Everything is artificial, nothing is natural."

Should Blacks in America, the descendants of slaves, be expected to embrace the U.S. system, Mweusi asked. "Many of the children born at this time do not even understand the confusion that they are born in, and the first things that they want to do is assimilate - integration. That was the worst thing that could happen, because integration didn't help us. Instead, we gave up our culture to be dominated by another."

"Blacks lost the land," he declared, "The need for land is now." Mweusi's call for nationhood echoes our own

call for National Freedom and Social Justice.

## ALTERNATIVES THAT WORK

The point of the continuing self - determination conferences and meetings is to come up with programmes and solutions that will work. Because, as Jumanne Mweusi said before an audience of Black and White separatists, "the U.S. is in a war situation." Conflict is unavoidable and therefore we must "deflect the people from negative to

positive goals."

Leon Dobbs has helped elucidate the Black nationalist alternative. Blacks in America, he states, are merely an extension of the African experience. Their future development will not be at the same level as in present society, nor will it be that of Africans 200 years ago, but at a new plane of social and economic life.

"We don't live in an isolated world," Dobbs remarked. Nevertheless, the races "can follow separate paths of development and still have interaction." Heeding the lessons of the Marcus Garvey movement of a half century ago, Blacks must consider the international ramifications.

"As we witnessed with Marcus Garvey, as he began the construction projects in Liberia, he found that he ran into the interests of the Europeans, and there were international problems."

But, as the Black Hebrews have shown, these problems can be overcome. Already 5,000 Blacks have been successfully repatriated to countries like Liberia, Zaire, Ghana and Kenya. Pan-Africans have 'checked in' with the people and the governments there, with the result that the relations are friendly and prosperous between the native population and repatriates.

## BREAKING DOWN BARRIERS

"Because of a sincere desire to repatriate and build the kind of bridges needed to foster future growth and development of repatriation as a viable alternative," Dobbs says that the initial barriers are coming down. He has emphasized that Pan -

Africans are determined and optimistic. There may be small problems down the road, but they can eventually be overcome, thus ensuring that repatriation will give the freedom that Blacks in White societies are desperately seeking.

One of the greatest barriers to the Pan - African effort is the old stereotypes still employed by politicians and the media.

Another spokesman for the

African Hebrew Israelite Community, Dr. Haraymiel Ben Shaleak unequivocally stated that, "The liberals promote the position that Blacks cannot make it separately.... and therefore we must be forced on one another to have any success. Well, our community is a living example that this is not true."

Dr. Shaleak explained how children in the Black Hebrew community are brought up with healthy values and useful skills. At an early age many can speak 2 or 3 languages, showing "what Blacks can do if they're taken out of the ghetto American situation and placed back in an African environment where they can develop on their own."

## UNITY IN DIVERSITY

Third Position nationalists of the White community and separatists of the Black community have joined together in order to promote their common ideal of racial freedom against the oppression of their common enemies - the Capitalists, Communists and Zionists.

The talk of nationalists must be credible and they must be willing to work with dedicated activists of other races in order to bring about the change they are seeking. In the words of Dr. Shaleak:

"Blacks who are afraid to take a stand will be heartened, and Whites who would like to support separation, but are afraid they will be labelled as racists, can then show an example of something good coming out of it."

The latest issue of

## NATIONALISM TODAY

This revealing interview with our Black comrades in North America should not be missed by any true nationalist.

## PALESTINE IS COUNTING ON US!

A YOUNG Jewish girl dies during a riot in occupied Palestine on 6th April. The world media becomes hysterical and the growing sympathy for the plight of the Palestinians receives a setback.

A few days later a secret Israeli army report of the incident is leaked and the truth eventually emerges. The reaction of the world media? Virtual silence.

So what really happened?

**Fact 1.** The Jewish hikers caught up in the riot, from a nearby settlement, had not cleared their outing with the Israeli army, and should not have been there in the first place.

**Fact 2.** One of the two Israeli soldiers guarding the hikers had a history of anti-Arab provocation, and he shot dead two unarmed Palestinians without reason. This started the riot in which a whole Arab village - men, women and children - took part.

**Fact 3.** The secret report revealed that as well as having her head crushed in by a stone or metal object, the dead girl was later found to have a bullet from one of her guard's rifles lodged in her skull.

Did the panicking guard try to cover up his terrible blunder by making it look as if she had been stoned to death?

**Fact 4.** The report goes on to state that the guns were seized from the Israeli soldiers **when they had run out of ammunition.** The guns were therefore empty when they fell into Palestinian hands.

**Fact 5.** And perhaps most revealing of all is the fact that the report admits that the Palestinian villagers had shown restraint and did not wish to harm the girl hikers.

This last fact stands in stark contrast to the worldwide reporting of the incident and the impression given by the Zionist establishment that the villagers had been out for the girls' blood.

And this leads us to another glaring omission. If the Palestinians had been intent on killing the usurpers of their nationhood, why didn't they kill the two Israeli soldiers?

After all, they had got close enough to seize their empty rifles.

### CHILD BRUTALITY

By contrast, a report of real child brutality has received the *National Front News* offices.

This states that on Saturday 12th March in the occupied Gaza strip, Israeli troops doused Palestinian children with a combustible liquid and set fire to them. Three children aged between 5 and 7 years suffered horrific burns.

But this isn't the type of report that you'll see in our media. Indeed, Palestinian sources say that just one per cent of similar atrocities become known to the international public.

This is precisely the kind of reason why it is so important that nationalists must become fanatical in their attitude to the *Campaign for Palestinian Rights*.

Palestine is counting on us!

## DEAR EDITOR

### NO OPINION (I AM THE PRISONER)

Don't ask me your questions, for I cannot answer,  
I have no opinion, I am the prisoner,  
Just a number, not a name,  
In life's evil game.  
I cannot vote,  
Just recite my number by rote,  
I supposedly have some rights, some entitlements,  
But they are false.  
I am not even guilty yet, but I'm taking punishment,  
But I can't say a thing,  
I have no opinion, I am the prisoner.  
Listen to the media lies, you'll think we've got it good,  
TV, video, warm bed, clothes, best of food,  
I'd love to tell them how long I spend,  
Banged up in a single cell, wondering when will it end,  
About all my hopes, all my fears,  
My worries, how many years  
Will I get?  
But I ain't even sentenced yet,  
I'd love to complain,  
And then attain  
Some semblance of decency in my world,  
This pit into which I've been hurled.  
But I have no opinion, for I am the prisoner.

#### Editorial comment

*NFN seeks to encourage poetic and other artistic expression among our readers. We feel that this contribution is especially timely in view of the pressures placed on remand prisoners and their families by chronic prison over-crowding. These people are supposedly innocent unless proven guilty, but are treated far worse than child murderers like the evil Myra Hindley.*

### THIRD WAY

Dear Editor,

Your editorial comment concerning the vital need for an economic Third Way for Africa based on the small farmer is echoed by a new organization.

Although we tend to oppose most of what comes out of that continent, the African Network for the Development of Ecological Agriculture (ANDEA) is promoting the Third Positionist message. As such its stand is also relevant to us.

ANDEA, based in Accra (capital of Ghana - presently experimenting with a form of popular participation) intends to organize farmers on co-operative, as opposed to collectivist or capitalist lines. It also favours organic farming.

By using more natural, healthier and cheaper ways of

producing food, it will release limited resources at present tied up in heavy equipment and agro-chemicals. Such projects were partly responsible for running up the massive debt problem faced by Africa.

The same message needs to be promoted in Europe, not in order so much to produce cheaper food, but to halt the growing problem of soil erosion due to the extensive use of chemical fertilizers.

As small farms have been bought up by institutional investors, the large, and largely absentee, "farmers" have sacrificed long term security on the altar of profit.

The Third Position promotion of small organic farms will, like most of our ideas, become an attractive, indeed necessary solution to a society poisoned by the ethic of greed.

Yours,  
G.W., Havering, Essex.

### PHILOSOPHY OF HATE

Dear NFN,

Every National Front activist knows that there is a small minority of apparently ordinary people prepared to use verbal abuse and even physical violence against us. In the case of the pensioner and war veteran Albert Mariner, at least, this has led to the death of an NF member.

The nice, respectable, well spoken, middle of the road figures of the Establishment go to great pains to inform us that they do not believe in violence. You would never see them throwing a stone or hurting anyone. But do they really oppose violence?

Look at what they do! They know they cannot fight Third Way ideas with democratic argument and debate, so they resort to undemocratic means and violence to keep us in check.

The good news in all this is precisely that they take us so seriously. They know that their System is corrupt and that we have the *potential* to change it. After all, you don't use a hammer to kill an ant, but you do use a hammer to try to crush an acorn before it becomes a mighty tree.

Yours,  
B.C., Herts.

## WOMAN'S RIGHT TO CHOOSE

Dear Sir,

I have just finished reading *NFN* 102 and your reply to the letter from *Nordikfist* asking why the NF takes such a strong line against abortion.

I too feel that to accord "rights" to an unborn "child" without any time proviso is a nonsense guaranteed to antagonise many women from supporting the NF (not all pro-abortionists are loony feminists). I understand your view that each individual possesses a soul, but it is wrong and deceptive to call a foetus or embryo a "child" when it is still completely dependent upon the mother's body. That makes it part of the mother's tissue, rather than an individual with a soul.

It should be the mother's and father's right to chose a termination of pregnancy where, if left to develop, that child is not going to enter a hospitable, properly cared for and loving environment because of (perhaps temporary) factors such as under-age motherhood, emotionally unstable parents, health, financial hardship, single parenthood, etc.

Forcing an undesired birth is effectively inviting at the best divorce, and at worst, child abuse. One could just as easily argue the rights of the child cheated of conception through the intervention of contraceptives or the earlier unwanted child.

Also, your "soul" at conception argument equally justifies continuing the exceptions, such as rape, which you say should be aborted. This is ridiculous, as a woman could contrive to trap a victim into a rape charge in order to get an NHS abortion!

Anti-abortion is easily argued by theorists who don't have to deal with the undesired and hence often alienated and neglected children that result. It is well known that poorly paid Whites and non-White immigrants form the largest proportion of those having abortions, and would be those most hit, while richer classes could pay to have abortions performed in private clinics abroad, or by properly qualified "illegals" in Britain.

Not only is the NF's anti-abortion policy class discriminatory, even reactionary, it is clearly at loggerheads with the need to reduce present urban sprawl population levels if a Return To The Land movement, and improvement in the general quality of life, is to be possible.

Is the way to build communities an increase in the number of Black children and foster parents? As the NF says "quantity is not quality." And if it's communities we are concerned about, let's not divide our communities by ignoring the rights of adult members in favour of spurious "rights" accorded a few parental cells at the moment of conception.

By all means set a time limit to abortion, but to oppose it completely is to fly in the face of reason, when there are far greater ills amongst the born that should concern us.

Yours sincerely,  
T.W., Suffolk.

# INSURE YOURSELF AGAINST LIBEL OR SLANDER !

WHILE *NF NEWS* does not normally advertize or recommend any service or product other than those of the *Distributist League*, something that we feel may be of particular use to our readers is a new specialised *Legal Expenses Insurance*, which is now available from a number of companies.

It's ironic, that while we are constantly told that we are living in a 'free society' with so called 'legal rights', the vast majority of people can't afford to pursue or enforce their 'legal rights'.

Over the years, dozens of NF officials and members have been libelled or have suffered defamation of character at the hands of newspapers and other publications. But of course, most have not had the personal funds to pursue the guilty Editors through the courts. (Legal Aid is not available to those wishing to bring a libel or slander action).

£1,000 A DAY

Barristers who specialize in these cases normally insist on a £10,000 'up - front' payment, plus a £1,000 'refresher' throughout the duration of the case.

Another example of where nationalists have not been able to enforce their rights, is the one where on a legal political activity they have been assaulted. Yet despite in many cases knowing and identifying the culprits, and despite having several witnesses, nothing further has transpired. Once again, the victim has not had the personal funds to initiate a private prosecution.

A *Legal Expenses Insurance Policy* entitles you to instant access to legal advice through a 24 hour a day telephone help line. You may simply want to know whether your complaint is worth pursuing, or you may have been wrongfully arrested and locked up in a police cell. Solicitors and Barristers man the telephone lines and whenever possible answer your query immediately.

## MEET THE BILL

If their recommendation is to take action, or seek further legal help, they will arrange for you to see a local solicitor in your area, or you can use your own solicitor if you prefer. Either way, the *Legal Expenses Insurance* will meet the bill.

The cost of a *Legal Expenses Policy* is dependent on a number of factors, but basically the annual premium for a comprehensive policy giving cover of £25,000 is £100.

Whilst this service should be free, it is worth critical support as it is at least a step in the right direction.

Insurance is of course a very complex subject, and we would recommend that anyone interested in this service should consult a qualified insurance advisor before committing themselves to any policy.

## HELP US TO CLEAN UP THE SEARCHLIGHT SEWER !

The NF's Security Dept. has researched and is currently writing a booklet exposing the malicious hatred of *Searchlight* magazine, its purpose and the people behind it.

This booklet is to be widely circulated, so never again will the lies of *Searchlight* influence the views of people against those who bear the brunt of its sick attacks. *Searchlight* has already lost any credibility it once had with many people, and with your help we aim to finish any remaining credibility it still has with those people who are a bit slow to catch on!

But we need extra funds to publish this booklet quickly.

Please send cheques/PO's made payable to **Burning Books, to: BCM Burning, London, WC1N 3XX.**

The more generous you are the quicker we can lay this insidious rag to rest !

Sacrifice  
Comes  
Victory"

## REMEMBER ALBERT MARINER !

Albert Mariner was a long-standing NF activist, pensioner and war veteran. While trying to reach a lawful NF election meeting, he received injuries which killed him the following day. The blame for his death lies primarily with the police, who deliberately allowed a violent mob to attack a small group of NF activists, including Albert.

They hoped this would "teach the NF a lesson." Indeed it did - never trust the police!

1988.

(Re-direction point).

## THE ULSTER FUND

## £250 DRIVE FOR JUNE

THE ULSTER NF have launched an appeal for its biggest ever publicity and recruitment drive. They aim to produce 100,000 leaflets for distribution over the two weeks around the 12th July celebrations.

The total collapse of the Unionist campaign against the London/Dublin diktat has left a political vacuum in the loyalist community. This makes it an ideal time for a really big drive to build support for Independence as the only way to bring popular government and peace to Ulster.

But an effective campaign can only take place if the Ulster NF can raise £250 over and above their normal income, by 21st June. They have therefore asked *NF News* to spearhead the drive to raise this urgently needed money.

Readers in Ulster should hand donations in at the **Beacon Books** shop in East Belfast, if at all possible or send it **Recorded Delivery**. But the RUC/Special Branch campaign of interference with NF post is still at a very high level in Ulster, so donations from the mainland or overseas should be sent to **PO Box 228, Manor Park, London, E12.**

Please make cheques/PO's payable to '**Ulster Fund**' and send whatever you can afford today !

There are many people on the mainland who claim to be "loyal friends of Ulster", so now you have the opportunity to do something practical to express that support !

## BE ALERT

We believe that the Special Branch/M15 have once again initiated a campaign at disrupting our post in order to cause us problems and see how well we cope with the situation. It should be common practise for all Cadres and unit officials to get Certificates of Posting for anything that they send. If you do not do this already, then start now - it doesn't cost any extra. Our only safeguard against this form of repression is to build up dossiers backed with hard evidence.

# SMASH THE FENIAN LIE-MACHINE!

ULSTER is losing the propaganda war! The National Front's Central Ulster Executive was recently sent a Greek patriotic magazine. Alongside articles supporting genuine patriotic groups such as the French Troisième Voie was one entitled "Freedom for Ulster". However, this featured pictures of Republican hunger-strikers, IRA artwork and Troops Out material.

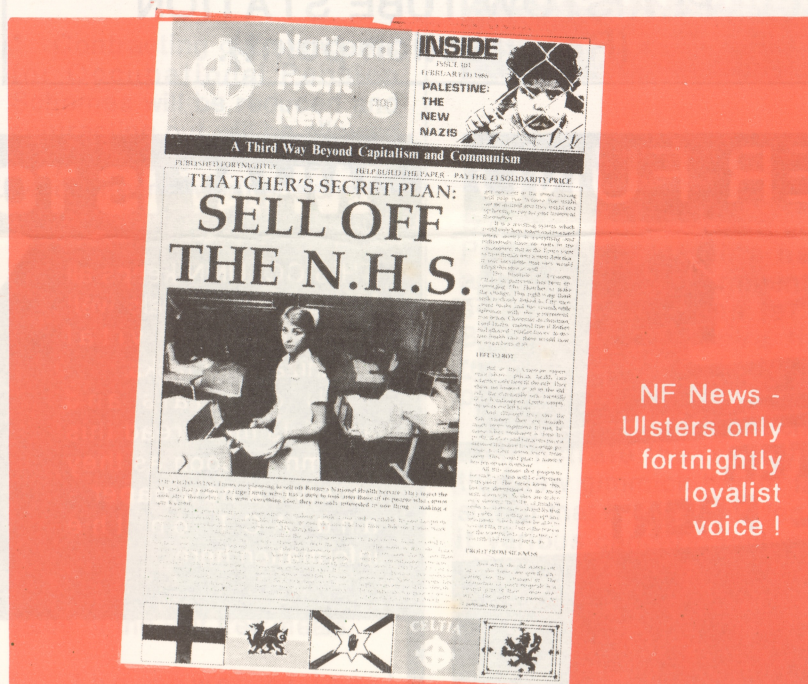

Unfortunately, this is by no means an isolated case. Only a few years ago almost every European nationalist group without exception supported the Republican war effort because they believed the nationalist rhetoric of the Fenian lie machine.

Fortunately, the NF's Bureau of Foreign Affairs has gradually managed to change this ingrained attitude held by many groups but confusion about the Ulster situation - as in this case - is still wide-spread throughout the world. Many people still believe that Sinn Féin and the IRA are true patriots.

### ARAB WORLD

This is especially so of the Arab world. But during the early 1970's Libya's Colonel Qadhafi actually supported Ulster and gave valuable trade to local firms. Today, however, he is universally regarded (alongside Noraid) as the IRA's greatest arms supplier. Why is this so?

The Republican propaganda machine is second to none. They have successfully sold the idea that they are a legitimate nationalist liberation movement fighting for the freedom of their country. The truth - that they are a squalid band of pro-marxist gaelic imperialists is largely unknown outside Ulster. This is due generally to the absence of effective counter-propaganda from the 'leadership' of Loyalist Ulster. It is little wonder then, that the Provo's masquerade has been successful in gaining some support from genuine anti-imperialists like Qadhafi and sections of the Palestinian resistance movement. This should not be so! Unionist 'leaders' have failed to point out how Ulster is the victim of Republican imperialist terror. In fact, their words and actions have often alienated potential

supporters in Great Britain and other parts of the world.

### OPERATION USA

There have been sporadic attempts by Loyalists to counter the more blatant Provo lies. One example was the 1981 Operation USA which was the brainchild of the late Rev. Robert Bradford. His murder by the IRA effectively stymied this attempt to educate the North American public. Since then, the main Unionist parties have not bothered to run any propaganda campaign in North America or Europe. Meanwhile the Provo's are constantly pumping out lies about Ulster - unchallenged.

There have been a few serious attempts to propagate a positive Loyalist viewpoint. The works of Ian Adamson and the Pretani Press have sought to give Ulster people a true sense of their national identity. Similar cultural work has been done by the UDA's Ulster Heritage Agency, the Ulster Society and the Ulster Historical Society. Politically, the Ulster Clubs have sought to promote the Loyalist Cause among Ulster exiles

throughout the world.

### REDRESS THE BALANCE

Unfortunately, these brave attempts cannot hope to stem the tide of Republican lies. Sinn Féin's newspaper, *An Phoblacht/Republican News* is produced on a weekly basis. Their Foreign Affairs Bureau has 'Irish Solidarity Groups' in over 15 Western nations. Much has to be done to redress the balance.

This cannot be done with scrappy duplicated A4 sheets with screaming headlines about an attempt to assassinate King Billy some 300 years ago! We need a regular well produced newspaper. We need to promote a Third Way for Ulster - beyond Republicanism and Unionism. We need to promote the positive concept of 'Ulster a nation'. Only then can we hope to smash the Fenian lie-machine. *National Front News* can be such a newspaper. Buy it. Read it. Sell it. Build the Loyalist Free Press.

## History, Identity, Culture

ISSUE 103 of *NF News* described how Celts - known as Belgae - arrived here from Europe in the first century AD. In the North, the dominant Celtic group were the Ulaid. They became overlords above the native Cruithin.

This fusion of indigenous Cruithin and their Celtic Ulaid overlords saw the birth of Ulster's true identity.....

Concobar: King of Ulster

## OUR TRUE IDENTITY

ONE FEATURE of our Cruithin/Celtic ancestors was that all knowledge, laws and history were passed on by word of mouth. This was because they believed that their Pagan ways might be corrupted if their teachings fell into the wrong hands.

Much importance was attached to this oral tradition. Laws and customs were carefully memorised, preserved and handed down by a professional class in schools run by the Druids. The ancient Greeks described these Druids as "philosophers and theologians".

Poets and bards were also very important to our ancestors. Many had considerable power and influence - and they would be called upon to give praise or make satire at important occasions. Even local Kings could lose honour before their community if the bards satirised them.

It wasn't until Christianity came to the island of Ireland that Cruithin and Celtic laws, customs and history were written down. However, alongside the new Clergy, Pagan bards, poets and jurists still survived.

The existence of Christians and Pagans produced a rich legacy of literature, both religious and secular. Although pre-Christian literature remains a mixture of myth and legend, much of what is said complements archeological evidence from the period.

It was during Ulster's formative period that Europe's oldest folk tale originated. This was the *Tain Bo Cuailgne* (the *Cattle Raid of Cooley*), the importance of which will be studied in our next issue.
